Flex Mobile in action

BUILT FOR MOBILE TESTING ENVIRONMENTS

VRA wherever you need it.

A 13.3 in Flex VRA monitor with an integrated LED light bar, designed for portable use. Flex Mobile delivers the full functionality of a standard Flex VRA system and ships with a fold-up tabletop stand and carrying case.

Designed for portability

Flex Mobile is a portable Flex VRA configuration for clinics, outreach programs and shared testing environments. It delivers the same reliable visual reinforcement as a fixed Flex VRA setup, without permanent installation. Deploy VRA testing quickly in temporary spaces, satellite clinics, schools and community settings, with the same workflow and familiar controls.

Where clinics use it

- ✓ Cochlear implant mapping rooms
- ✓ Between sound booths in one facility
- ✓ Satellite clinics, schools and outreach

Every Flex Mobile includes

- ✓ 13.3 in Flex VRA monitor with LED light bar
- ✓ Fold-up tabletop stand
- ✓ Hard-shell carrying case
- ✓ One remote control
- ✓ Flex PC (computerized audiometer users)
- ✓ 1-year warranty
